It is worth mentioning that Article 51.1.b.11 of the General Law on Political Parties states that in the year of the election in which only the federal Chamber of Deputies or the Congresses of the federal entities are renewed, each national or local political party, respectively, will be granted for campaign expenses an amount equivalent to thirty per cent of the public funding for the support of its permanent ordinary activities for that year.

And, that once the operation of numeral 1 of article 51 of the General Law of Political Parties has been carried out to determine the financing for obtaining votes in electoral campaigns, which results from multiplying the amounts approved for ordinary public financing by 0.30, resulting in the aforementioned amounts.

In view of the above, this Election Institute does not allocate public funding for each of the popularly elected positions.
